How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, dependency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.

NEVER BEEN DISAPPOINTED. As a general family remedy for Dyspepsia, Torpid Liver, Constipation, etc., it hardly ever fails to give satisfaction. It has never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the stomach and bowels.

further consideration of the subject matter was postponed to be taken up at the pleasure of the Board.

At 1 o'clock Supervisors Connolly and Connolly returned from visiting the Sonoma avenue extension and took their seats in the Board.

The report of the County Physician for the month ending June 30th was received and placed on file.

On motion of Mr. Connolly, Road Overseer of Fulton road, Road was ordered to be graded, graded, and the work to be done by the contractor.

Great strength and durability is another advantage. In other plans holes are bored in wooden boards and tamping pins inserted. This plan round in this board and cannot at all permanently in time, and it often cracks, splits, dries out, becoming brittle, totally and entirely worthless as a musical instrument. Our STEEL plates, and the sounding board is so constructed that our pianos can never become thin or metallic in tone. They are always in tune and the expense of tuning is saved. Geo. A. Batchelder, formerly of this place, and who recently disappeared from San Francisco to escape the persecutions of his disreputable wife, was seen in Napa a few days ago. He was out of employment and dead broke.

Wm. Parish Sr., and Wm. Parish Jr., father and son, were arrested by Constable Sparks last Thursday on complaint of A. Feurri, charged with misdemeanor in invading the premises of complainant and taking from a cernal without his consent four cows which had been taken up for trespass.

Do you feel weak and nervous? Would you like to be free from that spirit of restlessness and irritation? For quieting the nervous system, soothing and allaying all irritation, procuring refreshing sleep, and promoting digestion, nothing will prove more efficient than Fresco's Hamburg Tea.

Messrs. Bolini & Sutter of the Sonoma Meat Market will enlarge and otherwise improve the premises occupied by them on Napa street. Pending these alterations they will occupy temporary quarters in Weyl's building on Spain street, where they will be pleased to see all their old customers. They will remove back to their old stand inside of two weeks.

The City Trustees held a special meeting last Thursday evening to take initial steps toward the organization of a fire department. After considerable discussion in which the Trustees and several citizens participated, a motion was made by Trustee Manuel that a committee of two be appointed to interview the Water Company in regard to supplying the city with water for fire purposes. The motion was carried and the meeting adjourned until Wednesday, August 1st.

H. C. Manuel of this place has brought suit against the city and county of San Francisco to recover \$1,850. The plaintiff alleges that on the 8th of December, 1887, he entered into a contract with the city to furnish basalt blocks for one year for use on the accepted streets at the rate of \$44.45 a thousand. When he presented his bill for 41,625 blocks for June, 1888, the City Treasurer refused to pay it and he was informed by the Board of Supervisors that they would receive no more blocks from him after the 1st of July. Hence the suit.

The case of the People vs. H. E. Boyes will come up before Judge Small and a jury to-day. This case is the outcome of the Verano Land Company's trouble with the Messrs. Bacon. Mr. Boyes, who is one of our most respected citizens, is charged in the complaint with having drawn a deadly weapon on John Reva, a young man, well and favorably known in this valley, who, it is claimed by the defendant, was trespassing on his farm when the trouble occurred. We withhold any comments on the case as we have no desire to forestall a verdict.

## ESTATE OF MARY M. EWELL.

Squabble Over the Appointment of a Guardian.

On June 29th, Mrs. Belle Perkins, daughter of Mrs. Mary M. Ewell, filed a petition in Department 1 of the Superior Court, for appointment of a guardian of the estate and person of said Mary M. Ewell. The petition set forth the condition of Mrs. Ewell and the necessity of having a guardian appointed over her person and estate. The hearing of the case was set for Saturday, July 7th, and citations were issued. Pursuant to order the case was called Saturday morning, and the petitioner, Mrs. Belle Perkins, appeared with her attorneys. An opposition to the appointment of said Belle Perkins was filed by P. J. Ewell, Ella Ewell Lyon, Fred. F. Ewell and E. C. Ewell, together with a petition for the appointment as guardian of B. F. Campbell of Sonoma. The grounds upon which the opposition is based are as follows: "There has never been a harmonious feeling existing between the said Mrs. Mary M. Ewell and Will Perkins, the husband of Mrs. Belle Perkins. It has been one of said Mary M. Ewell's hallucinations from the first that said Will Perkins is plotting against her and trying to get the doctor to poison her in order to get hold of her property. It is believed that the appointment of said Belle Perkins, which would be equivalent to the appointment of her husband, would tend to lessen Mrs. Ewell's chances of recovery. Will Perkins has openly expressed an extreme dislike for Mrs. Ewell. We believe that Mrs. Perkins is conscious of her incompetency to manage the estate or properly care for the person of Mrs. Ewell, and that she has only petitioned to be appointed guardian at the solicitation of her husband, who is at present out of employment. We further believe that Mrs. Perkins lacks the experience and judgment necessary to properly manage the estate. About three weeks ago it was agreed among Mrs. Perkins' children, including Mrs. Perkins, that it would be best to have some disinterested person appointed guardian, and B. F. Campbell of Sonoma, was agreed upon."

After the counsel of both sides had been heard from, and it appearing to the court that Mrs. Ewell was able to be present in court, it was ordered that she be produced at the next hearing, whereupon, by consent of the counsel, it was ordered that the hearing of the matter be continued until July 11th.—*Santa Rosa Democrat.*

## Burglarized.

At an early hour last Saturday morning thieves broke into F. Cleve's store in this place and plundered the till and show cases. They secured \$45 in coin and about \$50 worth of jewelry. An ineffectual attempt was made to force the safe, which was supposed to contain quite a sum of money, but after making a large hole in the same the burglars abandoned the undertaking. The work was very clumsily done and evidently the work of amateur safe-crackers.

## Wine from Rose Leaves.

Says a lady of this city, who is a good housekeeper: "I visited a friend recently, and she gave me a glass of wine. It was of a pale amber tint, and had all the sparkle and delicacy of favor of champagne, and when opened, popped loudly. It was effective, though mild, as a stimulant, and I thought very fine. I asked what variety of grape it was made from, and my friend told me it was made of rose leaves. 'Take the fresh picked leaves,' she said, 'and put into a jar, alternately, a layer of leaves and sugar, and pour over all a little cold water. In four days strain, let stand a week and then bottle for use.' The wine is a delightful beverage."—*Atlanta Journal.*

## California Wine Yield.

I. De Turk of Santa Rosa and C. Krug of Napa county met Wednesday in the rooms of the State Viticultural Board in San Francisco to make an estimate of the wine yield this year.

From the present appearance of the vineyards they judged that the yield would be for Sonoma county 3,000,000 gallons. Napa 3,500,000, Santa Clara 2,500,000, Alameda 1,500,000, Fresno 2,000,000, Los Angeles 3,500,000, Santa Cruz 500,000, Contra Costa 500,000, Solano 500,000, Sacramento 2,500,000, other counties 1,000,000, making a total of 21,000,000 gallons of new wine as against 15,000,000 gallons produced last year; thus showing that they considered to be a very liberal increase of 6,000,000 gallons.

## THOSE PROVOKING RAILROADS.

The Report that the Southern Pacific Has Secured the Donahue System Denied.

Rumors of an interesting nature, prophecying, in the immediate future, a change of management in the Donahue system, have of late obtained quite an extensive circulation in railroad and business circles. It was currently stated that Mrs. Donahue Sr. and the Baroness von Schroeder had disposed of their interest in the property to the Southern Pacific Company, and that corporation, having thus obtained a controlling interest therein, would commence very shortly to operate it as a portion of the Pacific system.

Timothy Hopkins of the Southern Pacific Company, stated to a Call reporter yesterday that there is no truth whatever in the rumor. So far as he knew, he said, no overtures of any kind had been made toward the purchase of the line, and he authorized an emphatic denial of the whole statement.

"The Santa Rosa and Carquinez Railroad," Mr. Hopkins, stated, "was not built with any view of encroaching on the Donahue territory, but simply to secure for transportation East the wine, fruit, hops and other products of Sonoma county. Moreover, while regarding the property as a most desirable and valuable one," continued Mr. Hopkins, "it is outside the system, and its maintenance would necessitate the employment of a separate superintendent to take charge of it; also the operation of the line of ferry-boats."

Various rumors are current concerning the purpose of James M. Donahue's visit to New York. It is said in railroad circles that he is there for the purpose of selling the road to a syndicate of Eastern capitalists who have expressed a desire to get hold of some railroad property in California. Another story in that Colonel Donahue's visit was for the purpose of raising money to further extend his line through Mendocino and Humboldt counties.—*Call.*

## Editing a Newspaper.

Editing a paper is a pleasant business—if you like it.

If it contains political matter, people won't have it.

If the type is large, it don't contain much reading matter.

If we publish telegraph reports, folks say they are nothing but lies.

If we omit them, we have no enterprise, or suppress them for political effect.

If we have a few jokes, folks say we are nothing but rattleheads.

If we omit jokes, folks say we are nothing but fossils.

If we publish original matter, they damn us for not giving selections.

If we give selections, people say we are lazy for not writing more, and giving them what they have not read in some other paper.

If we give a complimentary notice, we are censured for being partial.

If we don't, all hands say we are a great hog.

If we insert an article which pleases the ladies, the men become jealous and vice versa.

If we attend church, they say it is for effect.

If we remain in our office attending to our business, folks say we are too proud to mingle with other fellows.

If we go out, they say we don't attend to our business.—*Ex.*

## An Explanation.

What is this "nervous trouble" of which so many seem now to be afflicted? If you will remember a few years ago the word Malaria was comparatively unknown.

—to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and Malaria are intended to cover what our grandfathers called Biliousness, and all are caused by troubles that arise from a diseased condition of the liver which in performing its functions finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.
